

## **Eclettica Fluid**

**Automatic lateral bracket system** 

650 ÷ 1600 mm

Max 250 kg

## **Eclettica Fluid**

Eclettica, developed as an improvement of Hide bracket, is an easy-to-assemble sliding system with bracket characterized by an automatic lateral coupling. Dedicated to wooden doors, it is also suitable to our Universal frame.

Eclettica bracket can be fully recessed in the door, in order to reduce the gap between door and track. It is also possible to embed the sliding rail into the ceiling.

Eclettica is available with the new Fluid soft closing dampers, in order to achieve an optimal braking motion and a noiseless sliding quality for doors of all sizes.

Maximum load capacity up to 250 kg.

terno scorrevoli

New automatic lateral coupler bracket With possible embedded by milling or clip-on style.

Easy adjusting, easy mounting

Hooking system: the trolley can be automatically engaged in the brackets by simply positioning and pressing the pin on the bracket lever.

Release system: to release the trolley, hand operate the spring lever.
